

Landfill and Solid Waste Committee

The Landfill and Solid Waste Committee met on Wednesday, Jan 25th. Members Steve Hamilton and Mike Webb discussed the need of a backhoe. Both members had gone and looked at two local backhoes. The first one was Jackie Randolph's, It's a 2004 super m 580 case 4x4 with cab, he's asking \$34,500. The other one belongs to Mrs. Crockett, it's a 1984 580 Case C with cab, they're asking \$10,000. The committee decided we needed to discuss with the court which direction everyone wanted to go, whether we need a replacement for rd. dept. and use our old one for landfill or fix the one up at rd. dept. and buy an older one just for landfill or just leave it the way it is.

No other business was discussed.
